WRITING

Popelicha.
26 November

Dear Haebercher

Thank you that read my letters. Sorry what
i don't write. I make lessons.

You asked me what i use me smartphone and
how often you use it. Our technology so progressive.

In my smartphone i use one hour play games, many
time communicate^m my friends and one hour write them.

I use my phone ^{three four} 3 or 4 hour in day. Our technology
to upgrade and ⁱⁿ future all world been in smartphone,

laptop. He has many friends, doesn't He?

He doesn't have many friends, does He?

When you sit in your phone?

Goodbye, i go make my lesson. Written

Lots of Love

WRITING

Smartphones are very important now. I often use a smartphone. We can use our smartphone to communicate with friends. Today it is hard to meet a person who doesn't have a mobile phone. Modern mobiles don't only allow us to keep in touch with other people, they also have games, cameras, they provide access to the internet, they function as MP3 players, etc. That is why we often feel helpless without phone. I use my mobile phone every day. It gives me the opportunity to speak to my relatives who live in another city. I always know that I can call somebody in case of emergency. I also use some applications eg for planning my day. But I hardly ever use my smartphone for playing games or idle talks. As for me I can't imagine my life without a smartphone now. Lately mobile phones have become not only a thing which is used to call people but a more. Mobiles have taken the place of computers.

WRITING

I think every person today has a smartphone. For many people it is a necessary thing, for everyday life. I can not imagine my life without smartphone now. Smartphone is a very useful device. I always spend time on my smartphone. I chat, text messages to my friends, play games, listen to music, do my homework and read books. I can do all this in my phone.

I believe that smartphones can change the world in the future, because more and more technologies are being developed in the world and phones are to upgrade too. Now there are an unmeasured number of smartphones and people are developing more and more models of smartphones.

With the phone a person can do many things. For example, a person without leaving home can see friends, work remotely, order food and clothing. Phone in our time has become an indispensable thing and I think it will not soon stop being so.

WRITING

I think now almost everyone has a smartphone. And many people can't imagine their life without him. Personally, I don't feel that way. I usually use my phone to call someone, play games, find information, write texting to my friends. Most often I only use it at home, but sometimes I take it with me. But this does not happen often, because I rarely play, I also rarely receive calls, and I find information on the computer. But if I am far from home, I need it. I think that the smartphone of the future will be very different from the smartphone of our time, because technology evolves every year and nothing remains the same. Smartphone of the future will be upgrade, more durable. I think the phone is an irreplaceable thing that everyone needs and it will stay like that for a very long time. Phones make people's lives very easy.

Writing

Harry Potter is a series of seven fantasy novels written by British writer Joanne K. Rowling. The story is set in wizarding world and shows the lives of Harry Potter and his friends Hermione Granger and Ron Weasley, all of whom are students at Hogwarts School of Witchcraft and Wizardry.

The main story concerns Harry's struggle against Lord Voldemort, a dark wizard who intends to become immortal, overthrow the wizard governing body known as the Ministry of Magic and subjugate all wizards and Muggles (non-magical people).

"Harry Potter" is powerful and detailed in plot and provide a big magical world for reader to explore.

Unusual cases, dark secrets and sad deaths will hold your attention right up to the final page.

As for the characters, J.K. Rowling has managed to create different personalities. The contrast between the sophisticated ideas of the problem trio of young wizards and their contemporaries is done most skillfully.

In conclusion, I would like to note that the only reservation of the book is its length. It has more over 3000 pages (3636) and 199 chapters so it is rather long. However, it's difficult to put the book down. I highly recommend "Harry Potter" to everyone as the greatest and most fantastic story.

Writing
Book Review

So, I am going to say a few words about a book, I have recently read. The book is written by well-known English writer of the 21 century (Anna) Ann Todd. The title of the book is "After". It is a (romance) love roman. The plot of the book is incredibly interesting and very intricate. This story tells about a young girl, who decided to continue her after education in a successful college.

105. Firstly, her life was very simple and usual. But all was changed after (confuse with) she met a bad boy & by accident during one of the lessons. There are some tragic, lovely, funny episodes in the book. I couldn't help smiling while reading it. Their love story involved me at all. I was reading this book during seven or eight hours a day.

This book convinced me to believe in a real love between teenagers. The author is a skillful person, who can ~~write~~ show a good story without dreaming parts and situations. This roman is very sophisticated for my peers and friends. They say that the plot is very busy and usual. But not for me.

To cut a long story short, the end of book is handled very exciting. It is very unforgettable and unexpected. After reading the first book you will want to buy the second and the third part. ~~of~~ On the whole the book is good.

If you like to pretty love stories, I advise you to read it.
